

## HORIZONTAL CUTTER

Cut 500

### Model

CUT 500 for Skin 535

The Cut has been planned for the separation of more objects, manufactured contemporarily in an only cycle, through a skin-pack system.

The cutter of our production are projected and manufactured in accordance to European Technical and Safety Rules and with special reference also to National Safety Rules, which we are listing on Conformity Certificate.

The horizontal cutter comes at the side of the skin, in alternative to the classical manual cutters, the ideal machine to have a complete line of skin-pack.

### Main features

- ▶ Framework of welded steel sheets, duly treated and varnished with epossidig powder.
- ▶ Loading and unloading table coated stainless steel.
- ▶ Pressure roller adjustable by an eccentric disk.
- ▶ Barre saves hand to protect accidental.

### Optional

- ▶ Base to support the machine.
